

Car Parts App - Quick Start Guide for Stocktakers

Welcome!

Your job: Count and verify physical inventory against the system.

Step 1: Login

1. Enter your **email** and **password**
 2. Click **Login**
 3. You'll go directly to **STOCK TAKE** tab
-

Step 2: Start a Stock Take

Begin New Count

1. Click **STOCK TAKE** tab
2. Click **+ Start New Stock Take**
3. Choose the **location/warehouse** to count
4. System creates a new session
5. Click **Start Counting**

You'll See

- List of parts that should be in this location
 - Expected quantity from system
 - **Quantity counted** (empty, for you to fill)
 - Barcode scanner option
-

Step 3: Count Your Inventory

Method 1: Scan Barcodes (Recommended)

1. Use your barcode scanner
2. Scan each part's barcode
3. Enter the quantity you count
4. Click **Record**
5. Move to next item

Method 2: Manual Count

1. Find a part on the list
2. Physically count items in warehouse

3. Enter quantity in the app
4. Click **Record**
5. Move to next item

Tips for Accurate Count

Count in zones (left to right, top to bottom)

Check high shelves and back corners

Don't rely on memory count everything

Take photos if quantity looks wrong

Step 4: Handle Discrepancies

If quantity doesn't match:

- **System says 10, you count 8:** Enter 8. The system will flag the difference.
 - **Find extra items:** Enter the count anyway. Manager will investigate.
 - **Can't find an item:** Enter 0. Manager will update system.
-

Step 5: Complete Stock Take

Finish Counting

1. Go through entire list
2. Every item should have a "Counted" quantity
3. Click **Complete Stock Take**
4. Review summary (differences highlighted)
5. Click **Submit**

Review Report

- System shows discrepancies
 - Parts with quantity mismatches
 - Photos you took (if any)
-

Step 6: Follow-Up

After Submission:

- Manager reviews discrepancies
- Adjusts system if needed
- Contacts you if questions

****Your job:**** Once submitted, you're done!

Common Scenarios

****Item appears twice in different places:****

- Count it where you find it (one location only)
- Manager will consolidate if needed

****Item is damaged/unusable:****

- Still count it
- Write a note (optional)
- Manager will mark as "damaged"

****New items in stock not on list:****

- Still count them
 - Note the part number
 - Manager will add to system
-

Your Dashboard

On login, you see:

- ****Active Stock Takes****
- ****Recent Counts**** (this week)
- ****Accuracy %**** (your historical accuracy)

****Goal:**** 100% accuracy

Quick Tips

****Slow down**** rushing causes errors

****Use a checklist**** check off each section

****Take photos**** of anything unusual

****Ask manager**** if you can't identify a part

****Count twice**** if you're unsure

Need Help?

- ****Can't identify a part?**** Show photo to manager

- ****Barcode scanner broken?**** Count manually
- ****System slow?**** Try refreshing
- ****Questions?**** Ask your supervisor
